

# Tūhauora Clinic

Northland Ear Nose and Throat Surgery

Dr David Waterhouse is an Ear Nose and Throat Surgeon with a special interest in freediving/diving related issues. As a keen Spearo himself, David knows how important it is to keep you in the water doing what you enjoy. Many diving-related injuries (barotrauma) require an early assessment and treatment by a specialist and are usually fully covered by ACC.

David is based in Whangārei but is available for initial telehealth assessments and advice for those spearos who live in other parts of the country. You can contact David directly via the Tuhauora Clinic website.

## Services provided to Spearos:

- Exostoses assessment (surfers ear)
- Barotrauma
- Ear Drum repair
- Sinus Surgery
- Diving related Hearing loss
